

To help you stay sharp in Spanish over the summer and start AP Spanish strong, you will complete **120 minutes of listening practice** over the break. You can choose from videos in the Google Drive folder and podcasts in the Spotify playlist linked below.

**Important:** Try to spread your listening practice out over the summer instead of doing it all at once. A little practice each week will help your listening skills much more than completing it in one or two days.

Many of the podcasts include transcripts, and you are welcome to listen while reading along. However, please do not rely only on the transcript — the goal is to improve your listening comprehension skills.

You may use [WordReference](#) to look up words, but please do not use translators. This assignment is meant to help you build and maintain your Spanish skills so you can feel confident and prepared for AP Spanish next year.

### Resources

After completing your listening practice, choose **five** videos or podcasts that you found the most interesting and complete the assigned activity on the next page for each one.

Be prepared to discuss or briefly present in Spanish one or two of your favorites during the first few weeks of class.
